Re: Lovett Middle School Project

Dear Mr. Rahn,

I wanted to thank you for the outstanding job Tebarco Mechanical did in managing and installing the plumbing work for Brasfield & Gorrie at the Lovett School project. Thank you for your efforts in making sure the Lovett Middle School Project was a success. The plumbing system was installed to exceptional standards and was on schedule. Your field staff was very knowledgeable and helpful throughout the process.

Tebarco Mechanical was a pleasure to work with throughout the construction process and, I hope I am presented with the opportunity to work Tebarco Mechanical again in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Fulford'. The signature is fluid and cursive.
