Re: Woodward Academy Athletic Complex

Dear Mr. Barden:

I am writing today to thank and commend you and your entire team at Tebarco Mechanical Corporation for your dedication and hard work at the Woodward Academy Athletic Complex project. As both the plumbing and HVAC contractor on the project we relied heavily on your team to coordinate all of the systems subcontractors, encompassing a challenging array of general-contractor controlled electricians and fire protection team members as well as owner-contracted controls and low-voltage contractors. I am pleased to say Tebarco exceeded our every expectation resulting in zero unresolved overhead conflicts or systems issues.

Tebarco was called upon to go above-and-beyond in so many aspects of the project. While already tackling a complicated 150,000 athletic facility, we were asked by the owner to facilitate the construction of a 40,000sf inflatable dome for temporary athletics use. This request was outside of the prime contract and never considered during early scheduling, but Tebarco never hesitated to master the details of this proprietary system and ensure it was open on schedule, just six weeks after being notified of the task. Your team showed tremendous flexibility and ingenuity and contributed greatly to the continued operation of the school's athletic program during construction.

Woodward is a valuable client with needs that surpass those of many other types of projects. We couldn't have asked for a better team member, more skilled management and trade staff, or more responsive support than we received from Tebarco. I would be privileged and honored to work with you again on any job.

Sincerely,

Richard J. Cerretti
Project Manager
